

LAND RECLAMATION DIVISION

Memorandum No. 02-03

To: All Coal Mine Operators/Consultants

Date: September 3, 2002

From: Scott K. Fowler, Supervisor
Land Reclamation Division

Re: Reporting of Affected Acreage FY02

At this time the Department is extending the deadline for FY 02 Affected Acreage Reporting (SCML 3) until December 31, 2002. The Department is reminding all operators that a detailed map must be submitted with their SCML 3 forms showing the acreage affected. If there are acres permitted and have not yet been affected an SCML 3 form for zero acres must be submitted to the Department for FY 02.

Please submit two SCML 3 forms and accompanying maps for LRD review, one of which bears an original signature, and one copy and maps for each county the permit is located in. DO NOT forward affected acreage forms to the county offices. All copies should be mailed to:

Scott K. Fowler, Office of Mines and Minerals, LRD
Illinois Department of Natural Resources
One Natural Resources Way
Springfield, Illinois 62702-1271

Pursuant to 62 Ill. Adm. Code 1816.190, underground coal mine operators are also required to submit an annual affected acreage form and map for permitted operations. Affected acreage should be reported under the surface affected category on the form. Instructions regarding the reporting of each disturbance category are given on the back (page 2) of the SCML 3 form.

SCML 3 forms are available on the Department's web page for electronic submittal or downloading for hard copy at <http://dnr.state.il.us/mines/lrd/cforms.htm>. Forms are also available from your field representative, or the Springfield and Benton offices.

Land Reclamation Division
Memorandum No. 02-03

Again the Department is encouraging the submittal of electronic copies of the affected acreage maps. Formats currently acceptable by the Department are:

- .DWG (AutoCAD)
- .DGN (Microstation)
- .DXF (AutoCAD Interchange File)

Electronic submittal of maps allows the company and the Department the ability to have identical maps, maximizing efficiency and reducing reproduction costs. If you wish to submit your affected acreage reports electronically and have additional questions, please contact Dean Spindler at the Springfield office.

The Department reminds you, if you have any questions concerning the reporting of affected acreage, or whether your company must submit a form SCML3, to contact your field representative, or the Springfield or Benton offices.
